

# COMSE6156 - Topics in SW Engineering: Cloud Computing Sprint 0 Status Report

## Overview

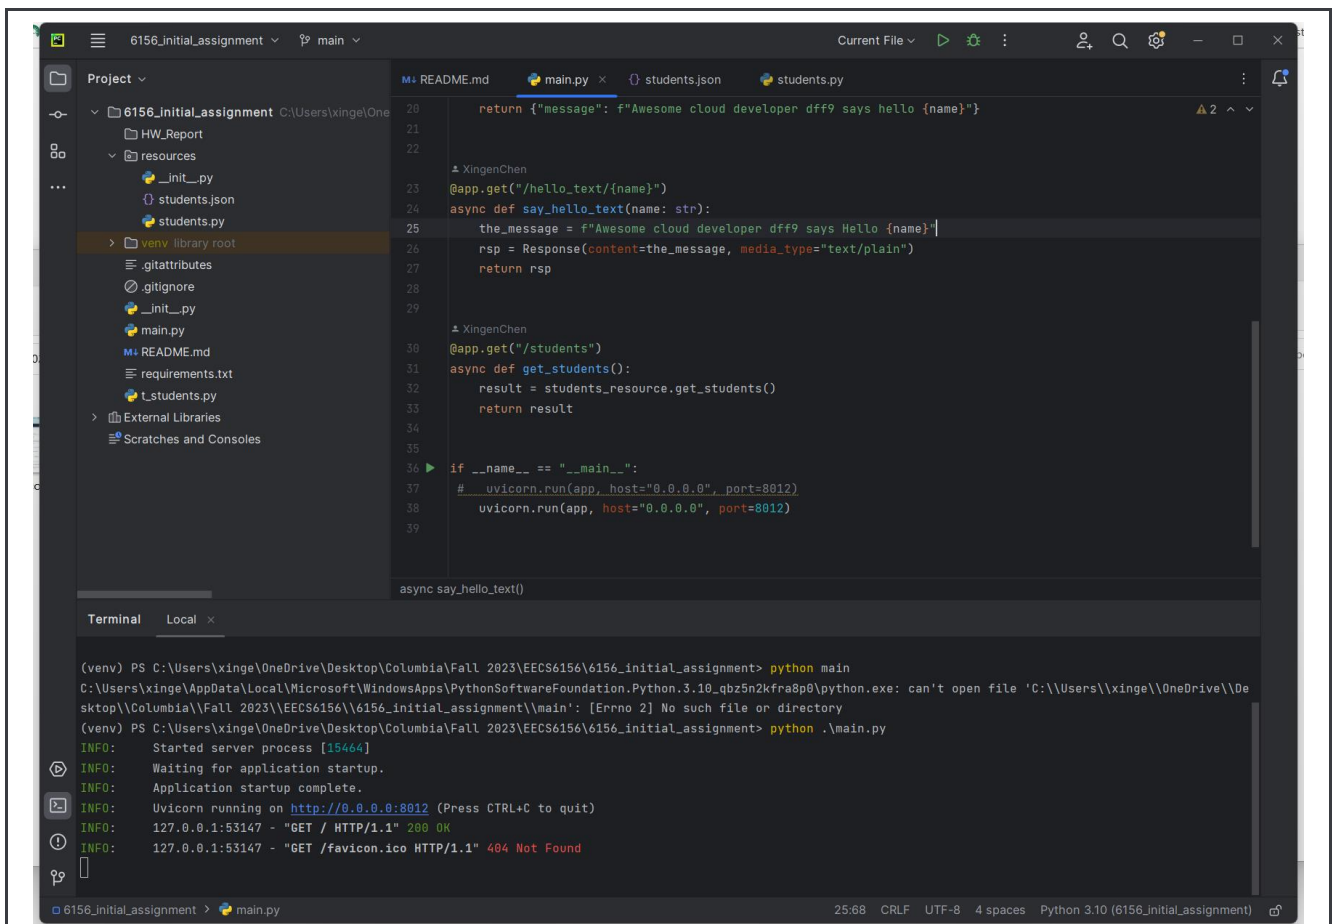

Sprint is a concept from [Agile SW development](#). Project teams will follow a simplified version of agile development to build their projects. A core concept in agile development is a *sprint*.

Sprint-0 is an individual sprint that focus on setting up their environments. All students must complete the sprint individually. This document is the template for submitting a status report on Sprint-0. Completing the report is simply taking screenshots and including them in the relevant sections of the Markdown document. You will submit a PDF version of the Markdown to GradeScope. We will post submission instructions on Ed for submitting the report.

## Clone and Modify the Starter Project

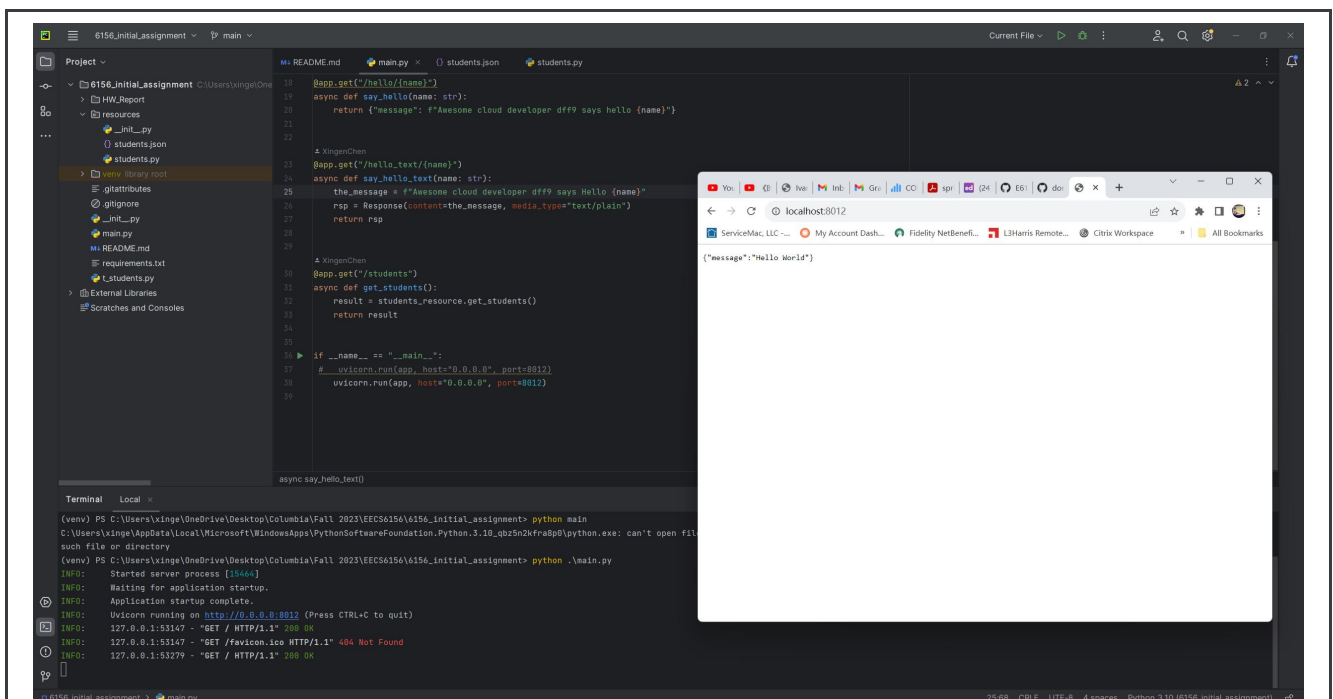

- Below is a screen capture of my directory. Display the structure in PyCharm

## Cloned Project

# Execute the Starter Project

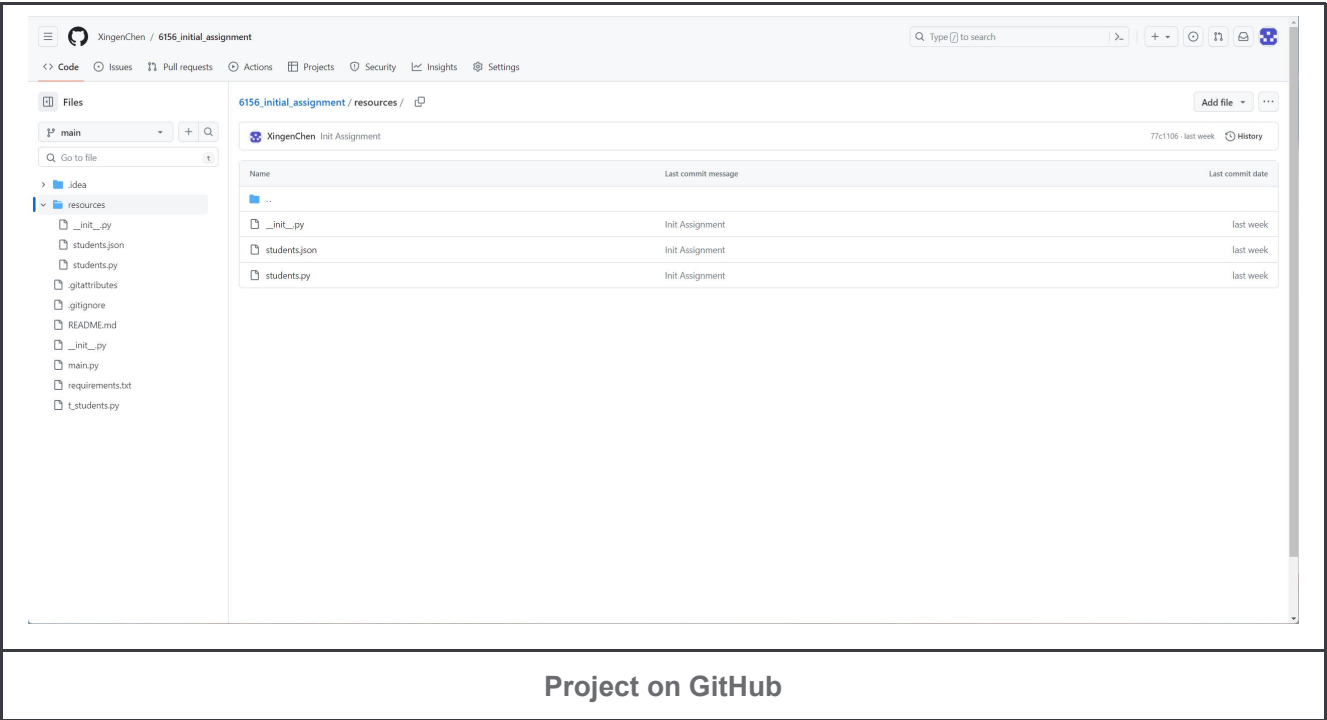

Below shows execution window and browser side-by-side.

## Project Execution

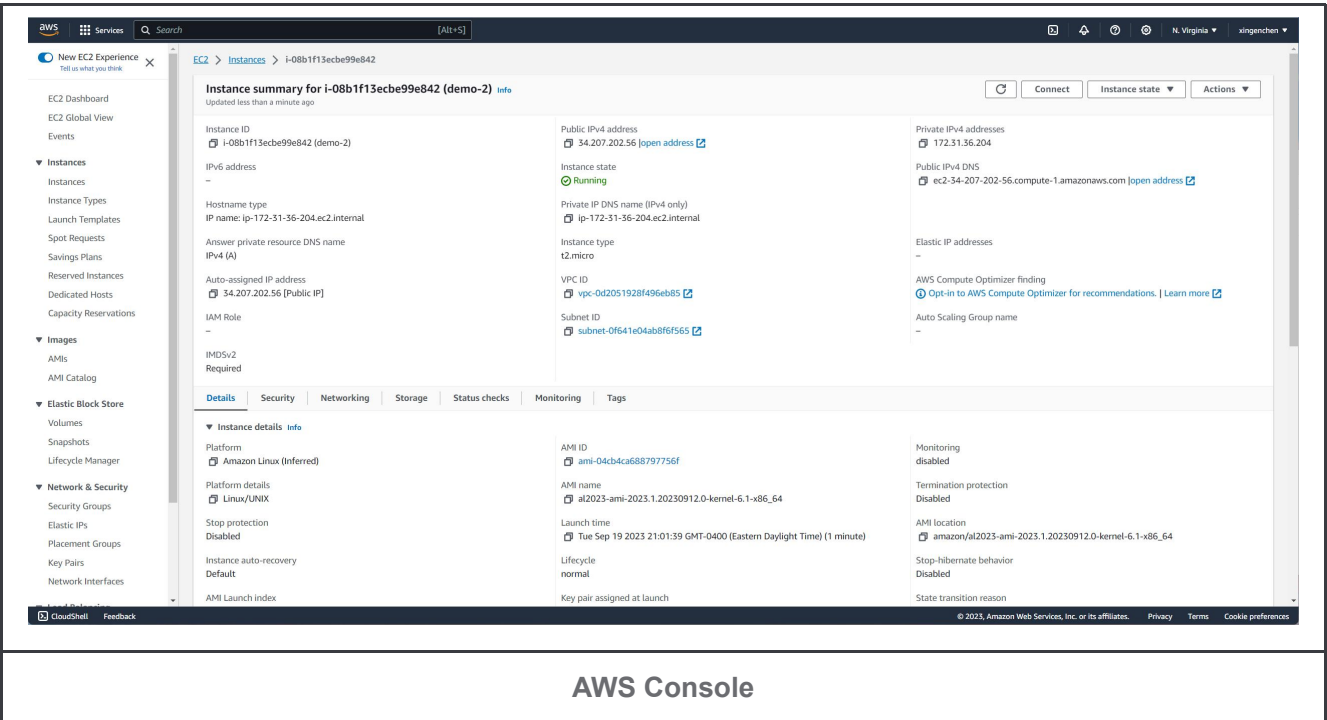

# Create Your Own GitHub Project

Below is Github project

# Deploy and Test Project on AWS

Show the information about my VM through the console.

Show the application running in the EC2 terminal and browser.
